

Cut Sheet: DS 360

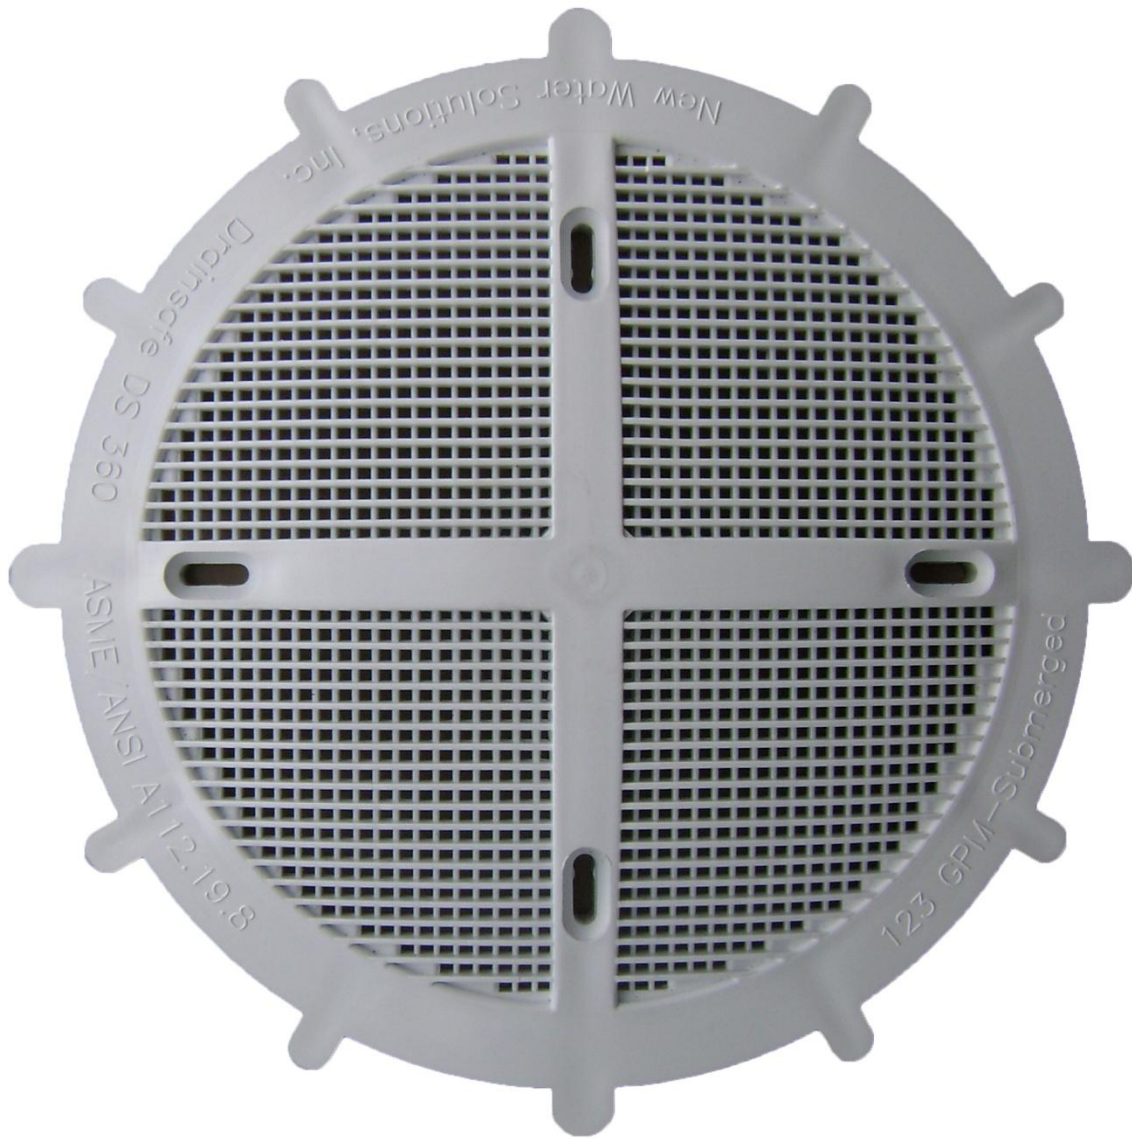

Anti Entrapment Suction Outlet Type Cover

Certified Gallon per minute @ Feet per second:	123 G.P.M. @ 1.5 F.P.S.
Open Surface area (Square Inches)	18.75 sq.in. top (70%) 8.4375 sq.in. periphery (30%) Total: 27.1 sq.in.
Measurements:	11 in. dia.
Maximum object size to gain entry into sump:	.3593 inch
Third party certifications:	ASME/ANSI A112.19.8M(1987) ASME/ANSI A112.19.8 (2007)
Tested by:	IAPMO R&T
Types of use:	Submerged Suction Fittings
Applications:	Swimming Pools, Wading Pools, Spas, Hot Tubs, and Whirlpool Bath Applications.
Date Tested:	April, 2007
Product Material:	16 oz. NSF 61 Certified PVC Material
Material Properties:	UV protected and superior chemical resistant rigid PVC
Mount type:	Floor and Side Wall (Horizontal and Vertical)
Sump Type:	Sump manufactured, Field Fabricated, or Cut off pipe:
Sump Diameter (Min./Max.):	Sump: 5 inch to 8 inch diameter Cut off pipe: ½ inch to 2 1/2 inch
VGB 2008 Compliant:	Yes

Features: DS 360

Anti Entrapment Suction Outlet Type Cover

- Designed to not allow entry of hair into the sump.
- Recommended for use on all standard sumps from 5 inches to 8 inches.
- To be used as a “Layer of Protection”. It is recommended to employ a Safety Vacuum Release System certified to: ANSI/ASME A112.19.17 Standard.
- Pool cleaner friendly. Allows for ease of brushing and vacuuming.
- Allows water to flow in through the domed top as well as along the bottom allowing for total bottom water turnover.
- Dome design minimizes entrapment via body or limb.
- Includes a 12 pc. Stainless Steel 316 grade Uni-Screw fasteners and security tool in kit.
- If box seal is broken, do not purchase.

Certificate of Conformity: DS 360

Anti Entrapment Suction Outlet Type Cover
